Source(s) of Images and Ideas (include references and credits, e.g. book title, author, web-site details)

I originally found the inspiration from a reposted poster design by Beauty Essentials that was uploaded on Pinterest. My other reference is from the Parable of the Lost Sheep from Matthew 18:12-14.

List the program(s) (e.g. Adobe® InDesign®, Microsoft® Publisher®) used to design the poster:

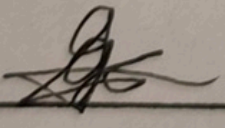

I mainly used the editing website called Canva to edit the text, arrange layout, and edit the coloring of each image.

Another website I used to help remove the background is Photoremove.com.

Describe the step-by-step procedures used to complete your project:

- First, I looked on websites such as Pinterest and Instagram for inspiration.
- Once the reference has been found, I started looking for pictures to use for the poster.
- After finding images I will use, I upload it unto canva to start the editing process.
- If the image isn't a png, I will upload it to photoremove.com to remove its background.
- I start with the background first, that in canva I split the image in half, then edit the brightness of the image to give it some contrast.
- Then I arranged the sheep on the mountain, and make sure it looks proportional.
- After trying out a few fonts, I will add the one that fits the poster and add the words.
- Finally, I added the cctv elements, as it is a reminder that God is always watching over us.

(add additional sheets if necessary)
