Goro 01

State your purpose, hypothesis, or reason for your project:

I prefer different types of sediments because I want to know its use a purpose.

Record the process or steps used in solving or approving the problem (hypothesis) or include an illustration of how your project works:

First step - collect them all and separate each type to strain out.

Secondly differentiate the wet and dry soils. After that, state the purpose and used of it and lay them out on a plywood, ~~area~~ and write the purpose of each of them and their usage whether it will be helpful or not.

What has been proved or illustrated, or what is the conclusion drawn from your project:

I've come to know more about (soil) sediments and their usage to the human environment.
