List the materials and tools used in completing your project: I used pencils (2H - 6B) and a eraser.
Describe the step-by-step procedures used to complete your project: First, I made a rough outline. Then I roughly shaded the areas that need shading. After I am satisfied with my outline I started to add details starting from the eye and work my way all the way to the tail. At the end I handed the final outcome to my teacher.

(Add additional sheets if necessary)
