State your purpose, hypothesis, or reason for your project:

The reason why we chose seeds particularly food seeds for our science collection is because food is a vital source of energy for humans and all living creatures, on earth, we all need food to survive.

Record the process or steps used in solving or approving the problem (hypothesis) or include an illustration of how your project works:

Firstly, we collected as many seeds as we possibly could, secondly, we ~~fixed~~ fixed the cardboard in order to arrange the seeds on. Then we glued the seeds into its respective sections. After that we worked on their names of each seeds onto the cardboard. ~~From~~ Finally, we covered the outsides of the cardboard and box.

What has been proved or illustrated, or what is the conclusion drawn from your project:

We have come to find out about many different types of food seeds.
