Describe your source(s) of ideas (eg. photo, library book/video):

I thought of the bowl design myself, but the flowers, leaves, and other decorations were inspired by Pinterest and Youtube.

List the materials and tools used in completing your project:

I used Clay, some water to soften/help it stick, and a painting Knife for small details. I also used acrylic paint and several brushes to color the bowls. To flatten the clay for the base and a few small details, I used a rolling pin. I also used acrylic varnish to make the bowls shinier.

Describe the step-by-step procedures used to complete your project:

For the main bowl part, I first made a base circle by rolling the Clay until it was quite flat, then I cut out a circle for the base. Then I rolled out 3 strands and braided them together. I joined the ends together, then attached it to the base. Then I added another braid to make the sides taller. After that I decorated the bowls with leaves, flowers, Snowflakes, and other decorations. Finally, I painted the bowls according to their respective seasons. As a last step, I added a layer of acrylic varnish.
