List the materials and tools used in completing your project:

Water, brush, waterpaint

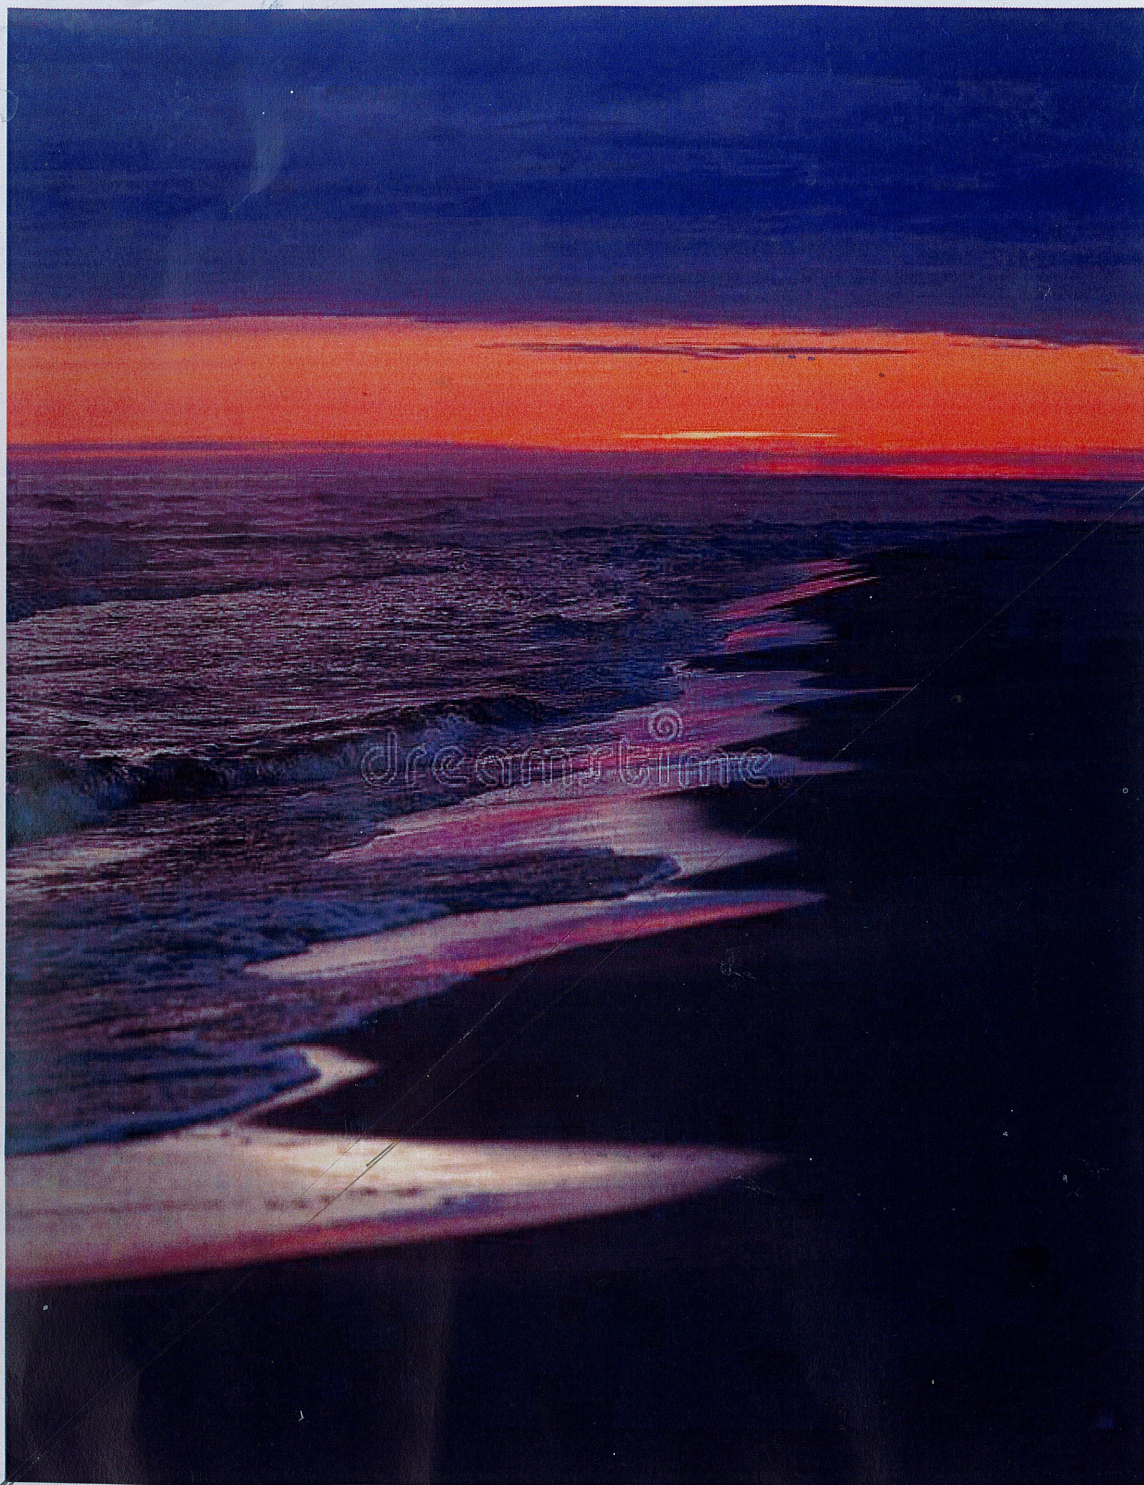

Describe the step-by-step procedures used to complete your project:

First I found the picture on microsoft edge and printed it. Then I taped a piece of paper to a board then I added the horizon lines in. After that I started by adding my sunset and sky, then adding the shoreline. Then I added the waves and then I put the pink, oranges and yellows into the waves. Then I put the texture into the waves by layering the darks with the lights.

(Add additional sheets if necessary)
