☐ Theoretical

Name:	Bathsheba Gilare		
Name:			
School:	Lae Christian School	Cust. Code:	LAEC01

State your purpose, hypothesis, or reason for your project:

The reason for my project is to prove that air has weight

Record the process or steps used in solving or approving the problem (hypothesis) or include an illustration of how your project works:

Firstly I bought two balloons, ruler and two pins after that I blew the two balloons and pinned the two balloons on the two ends of the ruler and then I popped the other balloon. After that I saw that the balloon which had weight was the one which was not popped. That was how I knew air has weight

What has been proved or illustrated, or what is the conclusion drawn from your project:

The conclusion drawn from my project was to prove that air had weight

Form continued on next page

SCIENCE REPORT - Continued

Give a Scriptural application or reference for your project:

Just like air that fills the balloon and makes it heavy, Jesus fills our heart with love and he makes us to love each other

Give a brief history of the discovery/invention or the hypothesis/facts you are using in your project.
Describe how the discovery/invention advanced to today's use, give your opinion of its future use:

The discovery of my project proved that air had weight which I never knew air has weight
