Describe how you came to your end result and why you chose this subject:

I came to my end result by first digging out a small hole in the bark at the school playground. Then I put a plastic mat in the hole and filled it with water. Next I arranged some yellow and white flowers in a vase and placed it on the water's edge. I then I bent down and took the photo. I chose this subject because I wanted to try a different category of photography.
