|        |           |                                     |                  |           |                          | Light Meter (Exposure): |

## Lighting Conditions:

Natural: Lighting from the sun.

Artificial: I edited the photo to make it clearer and I flipped the image horizontally.

## Describe how you came to your end result and why you chose this subject:

I chose this subject because I wanted to capture the beauty of nature from the top of a mountain. From this height, I could show the layers of mountains below and a tree on the side, which adds balance.  
I enhanced the image by increasing the contrast and color intensity. I also flipped it horizontally to improve the composition. However, some areas are still slightly unclear due to distance and lighting.
