I developed the idea from my imagination

List the materials and tools used in completing your project:

Pencil, eraser and sketching paper.

Describe the step-by-step procedures used to complete your project:

I draw the blocks first. I started thinking about the story that I want to show on. After I get the idea what to draw, I start carefully. I draw the scenes first (how the main character looks like, what he experienced, and how he treat it. Later, I wrote the sentences, so the audiences may fully understand it. Last, I checked whole comic again to make sure nothing too wrong.
