Pen, Marker, Sketching paper, Rencial, rubber

Describe the step-by-step procedures used to complete your project:

I started by using Pinterest and Instagram to look for ideas for my artwork, and I became interested in landscapes with mountains and trees. I used a few reference images to help with the general placement of mountains, trees, and foreground. First, I lightly outlined the basic concept so I could plan the composition and decide what changes to make. After I was happy with the placement, I went over the drawing with black marker and pen to create clean outlines. Finally, I added smaller details and textures to the trees, grass, and mountains to complete the artwork.
