List the materials and tools used in completing your project:

Coconut Leaf

Cane Knife

Describe the step-by-step procedures used to complete your project:

1) I took a coconut leaf from the tree, and cut the leaf in half from the tip of the leaf. 2) I started from the bottom, counting five leaves and making sure to start weaving. 3) Going over and under five times, then doing the same on the other side. 4) Once both sides are woven, I had to weave the extra leaves on the opposite side, to keep the edges from being loose. 5) After that, I left it out in the sun for the whole day to dry.
