Describe your source(s) of ideas (eg. photo, library book/video):

I followed a crochet video on Youtube

List the materials used in completing your project:

I used a 5.00 mm crochet hook, 3 balls of yarn, needle, scissors

Explanation of project (changes made to pattern etc.):

Firstly I made a slip knot then chaining 14. Secondly I did a half-double crochet into the second chain from the hook and doing half-double crochet into each of the chains till the end of the row with the end having 13 half-double crochet. Thirdly I chained 1 then flipped my work and repeated the half-double crochet doing 16 rows of half-double crochet and chaining 1. I then checked the length of the crochet to see if the size was okay, followed by chaining 1 and tightening my chain to complete the front piece. I then repeated the process on the back piece with the back piece being bigger with a total of 21 rows. I then put the two pieces together to see the size and I chained 1 and tightened the chain to complete the back piece. Fourthly I used a needle to hide the loose ends from the pieces.

Fifthly I tighten the new yard and chained 1 to stitch the border using the crochet hook by single crochets to secure the two pieces and continuing till the corners and doing 2 single crochets in the corner and doing a slip stitch and chain 1 at the end. Sixthly I did the bow by making a slip stitch and chaining 28 and doing a half-double crochet from the second chain into each. I then crossed the bow and wrapped the yarn and sewed in the bow to the pieces and securing it. I then attached the hook and made 17 chains, and made a slip stitch on the other end to create a handle for my bow. Finally I sewed in all the loose ends.
