I got this sketching idea off of an app called Pinterest.

List the materials and tools used in completing your project:

A sketching paper, a ruler, a rubber, a blending stick, a 4b pencil, a 2b pencil, and a HB pencil.

Describe the step-by-step procedures used to complete your project:

I started to draw this wolf by starting off at its neck with a 4b pencil then started with small strokes to mimick the effect of fur with a 2B pencil. After I finished with the neck, I traced around and made its eyes and head with a 2B pencil and started shading with the blending stick to create a shadow-like look. Then I drew a tiny butterfly on the tip of the wolf's nose. Finally after I finished drawing both the creatures, I filled in the remaining area by shading everything with my blending stick.
