Name:	Steward Kamiko		
Name:			
School:	Pangia Baptist Missionary School	Cust. Code:	

State your purpose, hypothesis, or reason for your project:

Purpose: to separate mixtures and ~~hypothesis~~ which is sand, sugar iron filings and water out of the water. So water is the main thing I want to use as a scriptural reference for these research.

Record the process or steps used in solving or approving the problem (hypothesis) or include an illustration of how your project works:

First of all, I will mix three different mixtures together in the glass jar. Sand, sugar and iron filings. Secondly, I will separate the first mixture by moving around the magnet above the mixture and the iron will attach on it. Thirdly, I will pour water into the glass jar of mixtures and stir up. Sugar dissolves. Then I will place a filter funnel on the beaker and pour of the mixture in the glass jar so that sand is collected on the filter funnel. Finally, I will separate the sugar and water using condenser.

Mixtures $\Rightarrow$  Mixtures $\Rightarrow$ Mixtures $\Rightarrow$ Mixtures $\Rightarrow$ Finally pure water

(sand, sugar, iron filings) (sand, sugar, water) (sugar, water) (water)

What has been proved or illustrated, or what is the conclusion drawn from your project:

It proved that the process of separating mixtures as been purified means pure water.

Pure water left

SCIENCE REPORT - Continued

Give a Scriptural application or reference for your project:

The Bible says in John 14:6: Jesus is the only way, the truth and the life! So the pure water ^{left} ~~is~~ simply means the same as ~~the~~ scripture above Jesus is the only one we need have on our life rather than having or serving other gods in our life'.

Give a brief history of the discovery/invention or the hypothesis/facts you are using in your project. Describe how the discovery/invention advanced to today's use, give your opinion of its future use:

When I was in a public school and that's the time I have ~~been~~ being doing grade 7 in 2021 my teacher ask me to do any science research. So I was the one. I told my teacher that I'll become a scientist so I got myself prepared and I've been doing these research about separating mixtures (sand/sugar, iron filings and water), but that ~~scip~~ research has been done without a scriptural reference. But for now I want to do this research to show others there is many thing on this earth you can belief on these earth as your gods but the Bible says Jesus is the only way, the truth and the life!.
