 ☐ Clay-Handbuilt
 ☐ Clay-Wheel Thrown
 ☐ Scrapbooking
 ☐ Bilum Making

Use this form for all Manual Arts entries EXCEPT for any Needlework

Purpose or use of item: To use as a sign to my School

Describe your source(s) of ideas (eg. photo, library book/video):

From last year Ivan's metal sculpture

List the materials and tools used in completing your project:

1. Grinding machine with cutting blade and sanding disk
old sawmill blades welding machines flame torch (oxygen propane)
paint (red)

Describe the step-by-step procedures used to complete your project:

first I got the metal (old sawmill blades) and used the grinder with the sanding disk and cleaned of the rust and then I removed the sharp edges with the cutting blade and then I cut them to the size that I wanted
Then I bended some of the pieces that I needed to bend by using an oxygen propane torch because the metal is high carbon steel then I welded the joints together after welding I painted it
