Your Ability Is Your Responsibility

By Steven Furtick

Are you glad to know that God won't hold you accountable for what he doesn't give you? That God won't hold you accountable for a gift that he didn't grace you with? That God won't judge you on somebody else's scorecard. It said that he gave one guy 5 he gave the other guy 2 and he gave Joel 1. Each according to his ability. You know how last week I was preaching and I apologized to the man that was lying on the mat,

Now I feel like I owe an apology to this parable that to mean that God does through my life is not up to me and even the way I would teach it when to teach it, I would say some of you are 5 talent people, some are 2 and some are one. Just do the best with what you got. And God will understand. It is great! But it's not great because it's not what the text says it's what I want to believe because that's convenient.

Well God I'm just not good at that well Lord you hadn't given me those gifts well God if you give me the opportunity or the exposure, I will totally do that.

But I'm just a 2 talent preacher, that's my excuse when I start seeing other people than me and helping more people than me. Well, I'm a 2 talent guy his 5 talent I'm 2. It's all right you understand what it's like to be a 2 talent guy. Mark!!! You know she's got the stuff you don't have it just the way it is! Then you can do about that, except it didn't say, according to the master's choice, it said according to his ability.

Now hold on< because ability is something that I play a part you all didn't catch it I'ma come to the intelligent room. It said according to his ability, now, there are certain abilities that you and I don't have, I might not have the ability that you have, and you might not have the ability that I have, so we could talk about that. But one thing that we all have, is the ability, to grow the ability that we've been given. I'ma come to the sinner. IT is possible that you are underestimating what you can do with your opportunity.

I told our staff, we underestimate what we could do, with the opportunity that we don't have and we underestimate what we could do with the opportunity that we do have, if we would grow in it! SO what I'm trying to say is God wants to entrust you with his wealth. God wants to entrust you treasure, God wants to entrust you with the opportunities to glorify Him. God wants to entrust you with His mission.

So you can grow, you can get smarter you can read books! You can take training, you can be interested in stuff, you can get a mentor you can get better!!!
