

The Door

Mime Solo – Dilaite Raleqe

Walks in saying hello, smelling flowers, and generally having a happy expression.

Hears even more wonderful, and happy noise coming from the other side of the stage, so decides to walk across to it and finds a door that is blocking the way.

Tries turning the knob various ways to no success. Notices keyhole, so reaches into pocket to pull out a key, put it in the keyhole successfully, turns the knob but the door is still locked.

Starting to get a little frustrated, goes to the other side of the stage and brings a box of tools to try and open the door.

First pulling out a pry bar to try and break the door open from the side, after several attempts the pry bar ends up bending with the door still locked.

Next pulling out a hammer that is comically oversized and after several attempts of trying to smash the door, finds it unsuccessful with the door still intact and locked.

Lastly bringing out explosives, after unfolding the wires and making a safe distance back detonates the explosives. When the dust settles looks around and notices that the door is still standing locked.

Frustrated rushes to door clawing at it before trying to kicking to door, hurting leg.

Feeling defeated kneels down trying to figure out what to do, before discovering Bible at the bottom of the box. Reading it prays and ask God to come into life, then gets up and tries the door to find that it opens and is able to enter into the Kingdom of God.

Turns to the audience and tells them that the only way the door to Heaven can be opened is if Jesus lives in us.
