				Light Meter (Exposure):

Lighting Conditions:

Natural: I used natural lighting from the sun to brighten my photo and make it look clear and warm.

Artificial: -

Describe how you came to your end result and why you chose this subject:

I took this photo during a family trip at the Marriott Resort Momi Bay. First I looked for good natural lighting coming from outside because it made the ocean and surroundings look clearer. Then I chose an angle that showed the background scenery while keeping the main focus of the photo. After that, I made sure the frame looked neat and that nothing distracting was in the way. Finally, I took the picture, checked that it was bright and clear, and kept the best shot for my convention submission.
