Artwork MUST NOT be copied.

Please list the details of the source(s) of your ideas  
(e.g. book title/author, photographer's name, web address - not Google!)

the bonsai seen from my room.

List the materials and tools used in completing your project:

4H, 2H, 2B, 4B, 6B, 9B sketch pencil

Lotory eraser, kneaded eraser

utility knife, sharpener, tissues

Describe the step-by-step procedures used to complete your project:

First, I conceived an environment (sat living with 4B): a lantern placed on the urban tree planter. Originally, I wanted to create a more overhead perspective, making the circular outline of the tree planter more visible, but the effect wasn't good, so I showed only a side of the planter. Since it's a planter, there must be tree, I roughly divided the roots into three parts. It's a weeping plum tree, so several branches drape from the top of the image (guiding the eye towards the lantern, and enriching the scene).

Then I started coloring, using 4B, 6B, 9B pencils to handle light and shadow, create texture and depth. This is a night scene.

Next, I started revising the drawing, using tissues and eraser to soften the colors — a necessary step for me everytime I do a sketch: self-reflection.

This time I took exceptionally long, because the entire scene was my first time: never drawn a lantern, let alone a tree planter or weeping trees (hard to find effective reference images which is overhead view), but I thank God that I was able to draw out my vision.

Finally, I used hard pencils which is below HB to sketch details, and above HB pencils to do a final touch-up on the entire sketch.

(Add additional sheets if necessary)
