Natural: I used no artificial lights but the light of the sun and nature.

Artificial:

Describe how you came to your end result and why you chose this subject:

I chose my subject on nature, because I wanted to learn to capture the glory of God illustrated in this wonderful universe He has created.

On the 23rd of February, 2026, I was studying in my room when I lifted my eyes and saw the glory of God reflected on the tiny piece of sky just in front of my window.

I hurried out of the door of my home like a fleeing squirrel. I was so excited I called my parents to see this. They exclaimed, "I have never seen this view for a long time!" The sky was the color of erupted volcanoes. I was greatly amazed. I got my phone out and took this splendid picture. When I got to school the next day, I found out that many people had the same thought as me and took the same picture of the same sunset. I believe God willed me to take this picture so I can glorify Him.
