I did not use any device to inspire my painting; I simply used my environment and my porch's view

List the materials and tools used in completing your project:

I used acrylics to paint the view from my porch. I thought the painting was gonna be a really nice end result

Describe the step-by-step procedures used to complete your project:

First, I painted the frame pure gray, then I filled the frame with blue. Second, I painted the bottom half green and yellow to match my garden. Third, I painted a little house in the left corner to represent the Nabua Primary School across the road, then I added some details to the painting such as clouds and birds. Lastly, I waited for the painting to dry the next day, so the acrylics painting was complete.
