Purpose or use of item:	A paper weight to hold paper
-------------------------	------------------------------

Describe your source(s) of ideas (eg. photo, library book/video):
The fruit bowl was my first idea I came up with. I thought of the spoon and the cup.

List the materials and tools used in completing your project:
I'm using wood from the flame tree, and the tools needed were the hammer, the chisel, some small chisels for shaping with some being sharp, and the hand saw. I also needed a knife, which includes blades of different shapes and sizes.

Describe the step-by-step procedures used to complete your project:
I chiseled the back of the wood first. Then I had to wait for the wood to dry, and the next day, I shaped it on the outside. I thought of hollowing out the inside for the cup, but it's too hard for me; so I had to make do with the paper weight. The top of the wood was trimmed off; the wood itself was smoothed and varnished.
