Describe how you came to your end result and why you chose this subject:

On the night of the Mid-Autumn Festival, I told her for the first time "the moon is beautiful isn't it", which probably come by the meaning of "I love you" in Japanese. At the time, I thought I wasn't talking about romantic love, but rather the kind of affection between friends. But come to think of it I really had romantic feeling towards her, but everything is too late for me. Every Mid-Autumn Festival, I can't help but take a picture of the moon so I could remind myself of that brief romance I once had.
