

Getting Started: The Magic Ring Method

To start your blanket, you have two options: a chain-3 slip stitch or the magic ring method. I prefer the magic ring because it creates a seamless center. Here's how to do it:

1. Lay the yarn tail over your non-dominant hand.
2. Wrap the yarn around two fingers, making an "X."
3. Hold the yarn in place with your thumb.
4. Insert your crochet hook under the short strand and over the long strand.
5. Pull the long strand under the short strand, creating a loop on your hook.
6. Chain five to begin the first round.

Round 1: Creating the Center of Your Blanket

This round sets the stage for the entire project. Follow these steps carefully:

1. Chain five (this counts as a tripouble crochet and chain one).
2. Tripouble crochet into the center of the ring.
3. Chain one.
4. Repeat the tripouble crochet and chain one sequence until you have a total of 10 tripouble crochets, including the initial chain-5.
5. Pull the yarn tail to tighten the magic ring.
6. Slip stitch into the second chain of the initial chain-5 to join the round.

Round 2: Building the Foundation

In this round, we start adding the texture that will define the blanket.

1. Chain one.
2. In the same stitch where you joined (the top of the second chain of the initial chain-5), make one single crochet, one half double crochet, and one double crochet.
3. Chain one.
4. In the top of each tripouble crochet from the previous round, work three double crochets.
5. Chain one between each set of three double crochets.
6. Repeat this sequence around the entire circle.

It's important to work into the top of each tripouble crochet from the previous round to create a consistent and even fabric.
