State the purpose, or reason for your project:

The purpose of this project is to learn how the British changed and influenced Pacific countries in the past and how those changes still affect them today.

Record the process or steps used in preparing your project:

We chose our topic on how the British Monarchy influenced the Pacific. Then we researched the topic and wrote a thesis statement to guide our ideas. We made about five drafts to improve our work before writing the final copy. We edited the final version, collected all our references, and found pictures to support our project. We printed and cut the images, prepared the cardboard display, pasted the pictures neatly, and finally printed and laminated the expository research to complete the whole project.

What has been illustrated, or what is the conclusion drawn from your project:

The project concludes that the British Monarchy had a powerful and long-lasting influence on the Pacific region. The British changed the Pacific through colonization, new laws, trade, migration, and especially the spread of Christianity.
