State the purpose, or reason for your project:

The purpose of this project is to give insight into the Crusades and answer whether or not their motives were in line with Christian principles.

Record the process or steps used in preparing your project:

First, I selected the topic and researched it. Next, I wrote and eventually typed out a composition explaining the topic. Afterwards, I found and printed online images relevant to the topic. Then, I gathered the necessary materials for making a display of these images (cardboard, paint, and glue).

Once this was done, I cut the cardboard to size and painted it accordingly, with a black exterior and gold interior. I then placed the images according to the order in which I would have them portrayed. Finally, I pasted the images onto the cardboard, thus completing the project.

What has been illustrated, or what is the conclusion drawn from your project:

While the majority of those involved with the Crusades fought with good intentions and thought towards salvation, the original purpose of these campaigns was to eradicate Islam and restore papal control over the Eastern Orthodox Church. In short, the motives were selfish rather than Christian.
