State the purpose, or reason for your project:

The reason or purpose why I choose this project is because God made us different with different ability just like the bulims with different pattern. This is the purpose why I choose this project.

Record the process or steps used in preparing your project:

Firstly I asked my sister to give me different patterns of bulims and she gave me four different patterns. Secondly I came back home and I asked my mom to give me one pattern of bulim and she gave it. That's the steps that I used to collect my different pattern bulims.

What has been illustrated, or what is the conclusion drawn from your project:

My project tells me that God gave us with different abilities just like the bulims with different patterns. That's the conclusion for my project.

Give a Scriptural application or reference for your project:

Exodus 25:1-10 shows what God wanted the Israelites to do. Just like the pillars with different patterns. It shows how to do work or ability to do things.

Give a brief background of your collection or topic that you researched, and why you chose that particular item/topic:

My discovery for this project is that God made us different from each other. God gave us with different abilities just like the pillars with different patterns. The pillars represents us and the patterns represents our abilities that God gave. The pillar is someone's ability doing them. That's the discovery about my project.
