Describe how you came to your end result and why you chose this subject:

I looked for a good location where the vehicles are parked neatly, I chose the best angle to capture the vehicles clearly, I made sure there was enough light from the spot light, I held my phone steady to avoid blurry photo and finally I focused the camera on the first vehicle and took the picture. I chose vehicle as my subject because vehicles are useful in our daily lives. They help us travel from one place to another. And I also liked how parked vehicles looked under the spot light.
