Use this form for all Manual Arts entries EXCEPT for any Needlework

Purpose or use of item: decoration

Describe your source(s) of ideas (eg. photo, library book/video):

<https://lakesidepottery.com/Pages/Pictures/Handbuilding-projects-ideas-pictures.html>

List the materials and tools used in completing your project:

2 big pieces of clay, thin and thick wire, my hands, fingers, cutting tools, smoothing tools, knife, thin piece of cardboard x2.

Describe the step-by-step procedures used to complete your project:

I first took the clay out of the wet cloth then for the first shape (the container) then I shaped it into a flat rectangle then made 2 flat rectangles and 2 flat squares I fused them all and then made another square to put in the middle for support so the hole thing doesn't fall when I put the roof on. Then I made a ledge for the lids and then I added a little handle in the lids and in the middle of the container. Then for the

second piece (the fridge-like decoration) I shaped it into a rectangle then I shaped a little square then a little flat line to go on top of the little square, then flipped it over and made a half-hole in the bottom.

Notes:

I smacked all pieces of clay that I used to get all the air bubbles out (I didn't write it earlier because I forgot that's why I'm writing it now)
