Describe how you came to your end result and why you chose this subject:			
I chose this picture because I liked the detailed pattern of the flower petals and the contrast between the white flower and the darker background. I took the photograph up close so that the main flower would be the main focus of the image. I liked how the natural lighting highlighted the texture and layers of the petals. The original photo was more zoomed out, so I zoomed it in so that the flower would be the main subject, I also decreased the exposure to -11, increased its contrast to 7 and decreased its brightness to -4.
