Describe how you came to your end result and why you chose this subject:			
I chose this photograph because the owl's large eyes, distinctive tufts, and calm expression caught my attention. Its alert posture made it a fascinating wildlife subject. To achieve the result, I moved close to the owl to face the camera and framed it vertically to emphasize its full body while keeping the background softly blurred. I waited for the owl to face the camera, allowing its eyes and feather details to become the main focus.
