List the materials and tools used in completing your project:

clay, clay wheel, paint, kiln, paintbrushes, tongs, and chisel

Describe the step-by-step procedures used to complete your project:

First, I took about a pound of clay and threw in the centre of the wheel. Then, I centered the clay and started pulling it up. I then shaped, formed a rim, and smoothed the edges. After it dried, I trimmed it and let it dry fully. I then painted it and fired it. After firing, I glazed it and it was done!
