Describe the step-by-step procedures used to complete your project: I painted the background lightly. I gently sketched the stem and leaves of my flower. I started painting the stems and leaves. I added more to the corner of my background. I darkened the stems and leaves. I painted the rose. I splotted watercolour paint around, making it look messy. I added more reds and mustards to the rose. Note: I used the source/photograph only for inspiration.

I drew this image because I think life is not black and white. It's a murky mixture of passion, hope, loss, joy, love and so much more. Life is like a melting, stained rose—it's never going to be perfect; it's never going to be beautiful without the ugliness. I drew this image because I felt something deep in my gut when I saw it on the Internet. I drew this image because I felt that it was a fair representation of my life.

Thank you,
