Source(s) of Images and Ideas (include references and credits, e.g. book title, author, web-site details)

The Bible, pinterest

List the program(s) (e.g. Adobe® InDesign®, Microsoft® Publisher®) used to design the poster:

Photopea, IbisPaintX

Describe the step-by-step procedures used to complete your project:

First, I traced a pic that I imported from pinterest directly. I then filled the outline to give it a manequin look. I then traced Roman armor and simplified it to create the set. I then inserted the drawings to Photopea. I applied a slight gradient and texture to the background. I also added a nail graphic to the edges of the poster. I inserted text which I coloured and renamed with the text tool. I also created hollow circles with the shape tool and connected them to the armor with lines. I added link of text to explain what each armor does.
