My own ideas put to gather.

List the materials and tools used in completing your project:

- Rolling pin
- Flat board
- Printing paint
- Palett knife
- paper plate
- strand of robe

Describe the step-by-step procedures used to complete your project:

Firstly I assemble the material, the paper plate and the robe

Next I put paint on them and started the process.

Then I place them on the paper underneath and place another paper on top of the painted materials and use the rolling pin to run or press the paper.

Lastly the print is ready and I set it to dry out in the sun.
