List the materials and tools used in completing your project:

Measuring tape, square ruler, hand saw, skill saw, table saw, drop saw, hand drill, drill press, glue, screw, nail and wood.

Describe the step-by-step procedures used to complete your project:

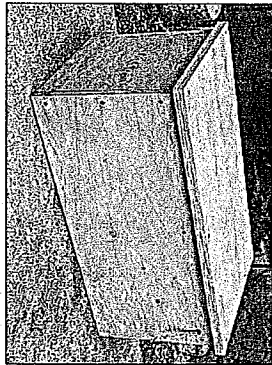

I measured and cut every piece I needed with the hand saw, skill saw, table saw, drop saw, hand drill, drill press. Then I assembled it all just to see if the height and width of the pieces were correct. Then I glued and screwed all of them except for the lid, then I carved like a little rectangle-half-hole, then I put the hinges in those rectangle-half-holes. Then I put the chain, screwed it in place then screwed the lid and screwed it to the chain.
