Describe how you came to your end result and why you chose this subject:			
I went to Sunda Kelapa harbour to photograph the action there. I took this photo while walking along the sea wall. The striking colours of these boats caught my attention, and the man going about his business on the boat presented an interesting subject. At the time I did not have a light meter, so I utilized my phone to function as a light meter. After the photo was finished, I went to a film lab to develop & scan it. After receiving the scans I tweaked them to make the image clearer.
